SUMMARY

Senior Frontend Engineer with 6 years of experience building production React and TypeScript applications at scale. Specialized in Next.js, component architecture, and performance optimization for consumer-facing products.

EXPERIENCE

Senior Frontend Engineer — Meridian Labs

Mar 2022 – Present

- Led migration of a legacy React app to Next.js App Router, reducing initial load time by 40%
- Built and maintained a component library used across 5 internal product teams
- Mentored 3 junior engineers and ran the frontend architecture review process
- Collaborated closely with design to implement a full design token system in Tailwind CSS

Frontend Engineer — Northwind Software

Jun 2019 – Feb 2022

- Developed customer-facing dashboards in React and TypeScript consumed by 50,000+ monthly users
- Integrated REST and GraphQL APIs into the frontend data layer
- Wrote unit and integration tests with Jest and React Testing Library, raising coverage from 40% to 85%

Junior Web Developer — Pixel & Co

Aug 2017 – May 2019

- Built responsive marketing websites in HTML, CSS, and vanilla JavaScript
- Assisted in the transition from jQuery to React across the company's product suite

SKILLS

React, TypeScript, Next.js, Tailwind CSS, REST APIs, Jest, React Testing Library, Git, Figma, Node.js

EDUCATION

B.Sc. in Computer Science — University of California, Davis (2017)
